D.O.B. April 8th 1989
Nationality: German

Private address:
Morskade 14
2332 GB Leiden
The Netherlands

Last updated September 16, 2020.

Personal profile

Currently, I am a Postdoc in the department of Molecular Epidemiology at the Leiden University Medical Centre, working on translational research of healthy ageing in familial genetic studies, and longitudinal intervention data.

In this position, I am a bioinformatician, a field which, through the constant evolution of techniques available in biology, must constantly adapt by developing and applying novel methods and methodology. It also requires the practitioner to develop multidisciplinary skills from the statistical, computational and biological domains. I am excited to be part of a field in which my knowledge and competences are constantly challenged, humbled and developed. The distinction between bioinformatician and biologist is deteriorating, and increasingly, it is biological questions that drive me. Beyond the technical aspects, I am interested in the broader social consequences of the methods, technologies and results which we as a scientific community produce. I am looking for a position where challenging problems, involving many different skills and team work, allow me to contribute positively to society, and further develop my skills.

Employment

Jan. 2018 - Present	Postdoc at Department of Molecular Epidemiology, Leiden University Medical Centre <i>Bioinformatician on healthy ageing, together with Max Plank Institute of Biological Ageing. Within the ERC funded "Geroprotect" project.</i>
Nov. 2016 - 2017	Postdoc at KNAW/Westerdijk Institute of Fungal Biodiversity <i>Embedded bioinformatician.</i>
Nov. 2012 - 2016	PhD Candidate <i>Conducted research and performed teaching. Within the STW funded "Push the white button" project.</i>
January 2012 - June 2012	Teaching Assistant - Course Computational Molecular Biology <i>Created and graded coursework, collected datasets for course use, and assisted students.</i>

Education

2012-2018	Pattern Recognition and Bioinformatics group, TU Delft, The Netherlands <i>PhD in Bioinformatics.</i> <i>Bioinformatic Analysis of Genetic and Transcriptomic Variation in Fungi.</i>
2010-2012	Leiden University, Leiden, The Netherlands (In cooperation with TU Delft) <i>MSc Computer Science Track Bioinformatics.</i> <i>Thesis on protein function prediction using Conditional Random Fields.</i>
2008-2010	Heriot Watt University, Edinburgh, Scotland <i>BSc (Ord) Computer Science</i> <i>Graduated with distinction.</i>
2007-2008	Napier University, Edinburgh, Scotland <i>Certificate of Higher Education</i> <i>Completed year 1 of Computer Studies, then transferred to Heriot Watt University.</i>

Skills

Analytical	Machine learning and statistics; "Data Science". Analysis of Sanger, NGS and long-read sequencing data (genomic, transcriptomic,
-------------------	---

Technical

epigenomic).
 Genetic/Genomic analysis (Genome assembly, Linkage analysis, *-WAS & *-QTL, Comparative genomics, Phylogenetic analysis, Variant calling)
 Transcriptomic analysis (Differential expression, Alternative splicing, Variant calling, eQTL analysis, Time-series analysis).
 Epigenetic analysis (Methylation), and Metabolomic data analysis.

Languages

Python, Scala, C/C++, Java, Shell, Matlab, R, waiting for an excuse to learn Julia.
 SQL, XML (and related technologies), L^AT_EX.
 Vector image editing (Inkscape, Affinity Designer).
 Pipeline development and management (Snakemake, Workflow Description Language, Anaconda, Jupyter Notebook).
 Experience with schedulers (SLURM, PDB) and version control software, (Git, Gitlab, SVN).
 Experienced with Unix environments (Linux, MacOS).
 Native speaker, English, Norwegian and German. High level Dutch (Have taught courses in dutch). Beginners French.

Teaching

MSc Courses

Frontiers of Science - Short Research Project
 Teaching assistant. Fall 2019, and 2020 at Leiden University Medical Center.

Functional Genomics and Systems Biology
 Lecturer and teaching assistant. Fall 2014, 2015, and 2016 at TU Delft

Computational Molecular Biology
 Teaching assistant. Spring 2012 at Leiden University

BSc Courses

Biomedical Informatics
 Lecturer. Fall 2019 at Leiden University Medical Center.

Clinical Research in Practice
 Lecturer. Fall 2019, and 2020 at Leiden University Medical Center.

Clinical Biotechnology: Bioinformatics
 Teaching assistant. Fall 2018, 2019 at TU Delft.

Molecular Data Science
 Teaching assistant. Spring 2018 at Leiden University Medical Center

Life Science and Technology Bioinformatics
 Teaching assistant. Spring 2016 at TU Delft.

Genome Scale Data Analysis
 Lecturer and teaching assistant. Fall 2014 at TU Delft

External Courses

Quantitative biology summer school
 Lectured on computational aspects of synteny and alternative splicing in fungi.
 Summer 2015 at Utrecht University.

Student Supervision

Myrthe de Haan

B.Sc student 2019-2020
Using the drug-protein interactome to predict intervention-mimicing drugs.

Jet Beekwilder

B.Sc Student 2017-2018
Comparison of DNA extraction methods from fungi for Nanopore sequencing.

André Vollering

M.Sc Student 2014-2015
Heterosis: Finding Associated Genomic Regions. (Under embargo)

Valerie Pourquie

B.Sc Student 2015
Conservation of polarization proteins in yeast and fungi.

Dimitris Palachanis

M.Sc Student 2013-2014
Using the Multiple Instance Learning framework to address differential regulation.

Talks

Conference talks

2019

DUSRA 2019: Presenter
A combined lifestyle intervention induces a sex-specific sensitization of the blood transcriptomic response to a nutrient challenge

LANDac 2019: Panel organizer and presenter
Uniting Global and Hyper-Local Data for Land: The use of global and local data for land grabbing risk prediction

European Dialogue on Internet Governance, EuroDIG 2019: Panel organizer and presenter
Digital cooperation in action - A collaborative case study: Predicting Land Grabbing

BioSB 2019: Presenter
Nutrient challenge exposes transcriptomic shift by lifestyle intervention in healthy participants

2016

ECCB Student Symposium 2016: Presenter
Karyollele specific expression in Agaricus bisporus

2015

BBC Student Symposium 2015: Presenter
Alternative Splicing in mushrooms from RNA-Seq

2013

Pattern Recognition in Bioinformatics 2013: Presenter
Conditional Random Fields for protein function prediction

Invited talks

2014

Heriot Watt University, Computer Science Seminar Series
Detecting and visualizing statistically significant clusters of conserved genes of diverged genomes.

Conference Organization

2019	LANDac 2019: Panel organizer <i>Uniting Global and Hyper-Local Data for Land</i> European Dialogue on Internet Governance, EuroDIG 2019: Panel organizer <i>Digital cooperation in action - A collaborative case study</i>

Other activities/skills/information

Awards	Nature Ageing, Rejuvenation and Health Conference 2019, 'Best Poster' award. ECCB 2016 Student Symposium, 'Best Oral Presentation' award. Benelux Bioinformatics Conference 2015 Student Symposium, 'Best Oral presentation'. TU Delft Graduate School, 'Best poster presentation' award 2013. Scott Logic Computer Science Prize 2010.
Reviewing	Publons profile Nature Communications (2019) Bioinformatics (2019) Nature Scientific Reports (2019) FEMS Yeast Research (2018) Nucleic Acid Research (2016)
Volunteering	International Student Network (Leiden) 2013-2020. Theatre set construction and management. (Performances of summer and winter of 2020 cancelled due to COVID-19). Dutch Red Cross (Den Haag) 2014-2015. First Aid (EHBO) at events and refugee centers.
Hackathons	Hackathon for Good 2019, The Hague: Translators Without Borders challenge Hackathon for Good 2018, The Hague: Asser Land-grabbing challenge
Hobbies	Thies regularly enjoys Catamaran/Dinghy sailing (Laser, 420, Hobie16), Track & Field (Running & Throwing), Climbing/Bouldering, and Swimming. On holidays he frequently goes skiing and hiking. Theatre production and acting. Arboriculture and arborist climbing techniques. From seed-polyculture vegetable gardening. Sourdough bread baking. Guitar. Reading.

Referees

Erik van den Akker	Assistant Professor at the Leiden Computational Biology Center, Leiden University Medical Center E.B.van_den_Akker@lumc.nl <i>Supervisor, Bioinformatics.</i>
Marcel Reinders	Group leader of the Delft Bioinformatics Lab M.J.T.Reinders@tudelft.nl <i>Doctoral promoter and supervisor.</i>
Eline P. Slagboom	Group leader of the Molecular Epidemiology group, Leiden University Medical Center p.slagboom@lumc.nl <i>Supervisor, Epidemiology.</i>
Han Wösten	Professor in Microbiology at Utrecht University H.A.B.Wosten@uu.nl <i>Collaborator, Microbiology.</i>
